Dear Physics Teacher:

The Department of Physics and Astronomy at the University of Manitoba is pleased to announce it will be hosting a **Physics & Astronomy Day 2010** event on Saturday November 27 at the Fort Garry Campus. With a program of talks, interactive activities and a planetarium show, we hope to build on last year's very successful event

(http://www.physics.umanitoba.ca/physics_day/physics_day.html).

The day will commence at 9 a.m., and will end in the early afternoon. A tentative schedule will be available shortly. We also intend to provide a free pizza lunch in an informal setting where visiting students and teachers can interact with faculty and graduate students from the department.

You and members of your high school physics class (particularly those interested and talented in the physical sciences) are cordially invited to attend. Because of space limitations, we must restrict the participation to 60 students in total, and their accompanying teachers. The organizers will accept participants on a first-come first-served basis.

If you are interested to attend **Physics & Astronomy Day 2010** and bring a group of students, please RSVP as soon as possible to the Department of Physics & Astronomy (email: beshta@physics.umanitoba.ca, tel: 474-9817, fax: 474-7622) indicating your name, affiliation, school address, and contact information, as well as the number of students that you plan to bring.

Please do not hesitate to contact us if you have any questions about the **Physics & Astronomy Day 2010** event. We hope to see you and your students in November!

Yours sincerely,

Dr. Peter Zetner
Professor
