

Faculty

- 23 research professors
- 21 adjunct professors
- ~\$2.5M in external research funding
- 12 research scientists + 6 postdoctoral fellows
- 35-40 graduate students
 - Physics
 - Astronomy
 - Medical Physics

1

Research areas

- Astronomy/Astrophysics
- Atomic/Molecular physics
- Bio- and soft condensed matter
- Condensed matter and materials
- Subatomic and particle physics
- Medical physics
- Theoretical physics
- Biomedical mass spectrometry

2

Graduate programs

- 35-40 students in MSc And PhD program
- ~50% international students
- Funding \$15,500 M.Sc., \$16,500 Ph.D.
- Medical physics
 - Cancercare Manitoba
 - Institute for Biodiagnostics

3

Undergraduate programs

- Honours
- Major
- Joint programs
 - Math
 - Chemistry
 - Biochemistry
 - Computer Science

4

Undergraduate research

- Scholarship support
 - 6 x \$1,600 scholarship
 - 3 x \$1,600 bursary
- Undergraduate summer research awards
- Support for travel to annual undergraduate conference

5

CAP exam

- Written end of February
- Top 10 students get prizes
- Top 3 students get first year tuition!

6
